

MDO-X

The latest addition to the comprehensive range of Polyaire ceiling vents is the Adjustable Multi Directional Outlet (MDO-X). It's unique design means it can be both fixed and adjustable.

Features

- Completely flush louvre blades even when fully open, gives a smooth ceiling profile.
- Ideal for use in all fixed/adjustable applications as the increased holding force maintains the louvres in the desired position even in strong air flow.
- The finish is etched to reduce reflection and accept painting with no preparation, a major cost saving.
- Softer more contemporary appearance with wider flanges, fillet corners and edges.
- Snap-In feature holds the biscuit firmly
 - Less likelihood of dislodging when adjusting or cleaning.

MDO-X

Sizes Available/Dimensions

Item #	Description	Nominal Neck Size		Face Size
